HERE is what Peter Cooper, who died worth many millions, said of a local newspaper and Directory: "In all towns where a newspaper and Directory are published, every man should advertise in them, if nothing more than a card stating his name and the business he is in. It not only pays the advertiser, but it lets the people at a distance know the town in which you reside is a prosperous community of business men. As the seed is sown so the seed recompenses. Never pull down your sign while you expect to do business."—Exchange.

THE SIGNS

MAKE IT EASY FOR CUSTOMERS TO FIND YOU

by keeping your name displayed under the proper classifications in your

The cost of Registration substracted from the amount of business you get, will show you why the thousands of successful firms

What's in a Name?

W. A. Greenough established a directory business under his own name in 1862 and since that time, 69 years ago, we have carried his name. The present Corporation of W. A. Greenough Co. succeeded W. A. Greenough & Co. in April, 1923, and are publishing the same directories under the "Greenough" system, so well known all over New England.

The Green "O" is a distinctive sign in the Directory business and carries service second to none.

No Directory Library is complete without it.

We have experienced foremen and employees in every department and we spare no efforts in improving the service furnished with this name.

Recognizing the value of a House Directory, we were among the pioneers to include that additional service in the single volume, and we furnish the wives' names in all our publications.

DIRECTORY OF HOUSEHOLDERS
OFFICE BUILDINGS AND BUSINESS PLACES
Including a Complete
STREET AND AVENUE GUIDE
1932

Copyright, 1932, W. A. Greenough Co., Boston, Mass.

The streets are arranged in alphabetical order.

Intersecting streets are shown at the actual numbers where they intersect on each of the streets.

House numbers are compiled in numerical order, both sides of street, embracing odd and even numbers, included in one list representative of the entire street.

Following the street numbers are shown the names of the resident occupant or business concern. Places of business are indicated by the nature of the business being stated after the names.

Occupants in office buildings are shown by room numbers where practicable.

Profession or business is shown only at actual places of business; to find occupation of householders refer to the Alphabetical List of Names.

The * preceding any number indicates a telephone at that number.

The City Directory

Represents Conditions Today — History Tomorrow

The men who direct the affairs of the city and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the world as no other publication does or can do. It is the logical means of publicity in advertising the city, its industrial, commercial and social advantages. Patronize the City Directory and you automatically boost your own business.

The sign over your door is a mighty good investment, but just consider how much "mightier" investment the Directory offers you.

GAS COMPANIES

A Shorter Working Week For the Housewife

The average housewife works more hours a week than a factory girl and most of her working hours are spent getting three meals a day and washing the dishes afterwards. Fortunately, there is a happy, simple way to shorten the working week of the housewife and that way is by the use of GAS in the new Insulated Glenwood Gas Ranges. A quicker easier, better method of cooking has never been devised. There are no baking failures with a Glenwood Insulated Gas Range. The Automaticook watches the oven and provides that evenness of heat which is so essential to perfect results. See the new Insulated Glenwoods now displayed on our sales floor. Prices are lower than perhaps you imagine, and terms of payment are exceptionally attractive.

DIRECTORY OF HOUSEHOLDERS
OFFICE BUILDINGS AND BUSINESS PLACES
Including a Complete
STREET AND AVENUE GUIDE
1932

Copyright, 1932, W. A. Greenough Co., Boston, Mass.

The streets are arranged in alphabetical order.

Intersecting streets are shown at the actual numbers where they intersect on each of the streets.

House numbers are compiled in numerical order, both sides of street, embracing odd and even numbers, included in one list representative of the entire street.

Following the street numbers are shown the names of the resident occupant or business concern. Places of business are indicated by the nature of the business being stated after the names.

Occupants in office buildings are shown by room numbers where practicable.

Profession or business is shown only at actual places of business; to find occupation of householders refer to the Alphabetical List of Names.

The * preceding any number indicates a telephone at that number.

The † preceding any number indicates a private way.

WHAT DO YOU DO WITH THE OLD DIRECTORY ?

Why not take the old book home now that the new one is out. Many of our subscribers are doing this and tell us it is quite as necessary to have one in the home now as in the office.

THANK YOU! **Your Wife** will find many uses for it. She can look up the people she meets and find out who's who in your city. She will use it for invitations, addresses, streets, etc.

THANK YOU! **Your Daughter** can look up her friends, their parents, club, church and society data, and miscellaneous information of all sorts. Find strange streets and exactly how to reach them.

THANK YOU! **Your Son** will find it both interesting and instructive. It will settle many a friendly argument.

THANK YOU! **The Old Folks** can look up their old friends, the various facts concerning the city, and they will marvel at the city's wonderful growth.

You Will Use It Yourself

and the folks will thank you for bringing it home
